

Summer Academy Kindergarten Parent Testimonial Letter

13th June 2008

Dear Julie and Yan,

We are too excited to share with you how Yi Wen loves Summer Academy. Yi Wen will always say during the weekend, **"I can't wait to go to school on Monday!"**

Every school day is a lovely day for her. When she's back from school every evening, she will show us her favourite art and craft accomplished under teacher's supervision. For her, **learning is fun.** We can sense that **she enjoys making creative art and craft in Summer Academy more than anywhere else.** **She learns to be more creative, resourceful and flexible in thinking.** We believe that **the different exposures and experience gained through various activities during childhood shall form children's fundamental foundation for their brain development.**

During the recent school holiday, Yi Wen had a wonderful field trip to rabbit farm with teachers and friends. She described her trip with excitement and animated gestures to show us how she held the rabbits, feed and carry them; and also told us that the baby rabbits were "as cute as her baby sister", and the dressing contest for the rabbits. We shared her joy and excitement as one of her most memorable experience for this past school holiday.

Teachers at Summer Academy are dedicated, loving and caring. Thanks to Teacher Yan for his fantastic cooking class which Yi Wen ranks no. 1 in her favourite list. Thanks to Teacher Rosy for her sense of humour that always makes Yi Wen laugh during her favourite English class and her dedication in guiding children in all aspects of character-building. Thanks to Teacher Nina for her effort in improving Yi Wen's concentration / focus whenever there she gets distracted and we are glad that Yi Wen has demonstrated more enthusiasm in reading Mandarin stories. Not forget to thank Teacher Uma for her nap-time stories and her effort to get kid's involvement in making creative art and craft such as pop-up book, tiara, sparkling little purse, etc. Thanks to Kakak Pushpa for her wonderful cooking under Teacher Yan's supervision as Yi Wen can't resist to say "yummy" when she describes her lunch at school everyday. Thanks to Teacher Julie for her recommendation of prune juice that solved Yi Wen's

constipation, ha...ha...ha. Our appreciations also goes to Teacher Faye, Teacher Moi Cheng, Teacher Jessica, Teacher Alice and Teacher Miza whom Yi Wen also mentioned from time to time.

We are glad that the teachers are always concerned and keep us informed of every aspect of Yi Wen's learning progress, learning attitude and personality development. **We can see that Yi Wen is more confident in expressing her thoughts / ideas and in participating in discussions or drama role-play. We hope to see her grow up as a happy and confident "little princess".**

I must say that **Summer Academy is always my first choice of kindergarten and day care centre. I can definitely have peace of mind to leave Yi Wen in the most conducive environment for fun learning and personality development.** Furthermore, Summer Academy also puts children's safety as top priority. Various measures such as barricade at staircase and CCTV at the front gate are in place to ensure safety of the kids in the school. This is the best we can give to Yi Wen for a happy childhood.

Seow Wei & Ong
